

Weekly Report

2018.10.08-2018.10.14

• Doing & done

	events	time
Mon	take lessons all day	0
Tue	discuss with Wang Xumeng on the implement of generating gbn network and specify the dataset	8
Wed	finish building the framework of spring boot	8
Thu	take lessons all day	0
Fri	Reading the document of a BN lib of java, understanding how to use	8
Sat	discuss with Wang Xumeng and specify the interface of the data structure, try to implement it soon	6
Sun	try to implement the interface with the existing lib	6
All		36

• Work plan

- Implement the "initialization" interface for front-end in 2 to 3 days
- Keep learning deeper on probability graph theories
- Finish watching the video on algorithm introduction by MIT on Youtube
